

*"We live for living, not to learn to live" Pasternack*

This phrase by the Russian writer is an inspiration and I say: "We ski for skiing not for learning skiing" and I add "...therefore let's go skiing the White Planet" This is our message. Let's make of our love for skiing the inspiration to travel the world and ski all the wonderful places it has.

Our offer of ski trips is of high quality and variety. Choose where to go, the best week according with your duties and book.

## **WINTER 2012**

### **JANUARY: Japan - Niseko e Rusutzu (off-pist assisted by chair lifts)**

Departure Sunday the 15<sup>th</sup> of January Milan Malpensa at 12,20, return Tuesday the 24 Milan Malpensa at 7,30 am. Price € 2.900, all included

Booking and deposit must be done within the 30<sup>th</sup> of November 2011, after that date booking will be possible but paying extra due to the rising cost of aeroplane fares

In Japan we ski in the sun too

A cold jet stream from Siberia picks up the moisture of the Japanese Sea and once it reaches the Okkaido Island dumps amazing quantity of fantastic snow. the best slopes, places where nobody goes. If you want to visit this incredible country, get a sample of its culture and ski incredible snow join this trip. Book before the 15<sup>th</sup> of November, after that the price will rise due to aeroplane costs.

## **FEBRUARY: Usa, Jackson Hole**

Departure Friday the 3<sup>rd</sup>, return Monday the 12<sup>th</sup>. Price € 2.500

(Off-piste skiing assisted by chair lifts)

Booking and deposit must be done within the 30<sup>th</sup> of November 2011, after that date booking will be possible but paying extra due to the rising cost of aeroplane fares

Powder, powder and powder. The great advantage to go skiing in Jackson is the logistic. The airport is so close to the resort that you don't wait half a day with flights and you are straight ... in the powder. A clever way to have a powder week in the famous champagne snow of USA.

Great off piste just outside the hotel

## **MARCH: Kazakisthan: Chimbulak**

Departure: Friday the 10<sup>th</sup> of March, return the 18<sup>th</sup>. Price: Euro 2.800

(off piste skiing assisted by ski lifts and a bit of ski touring)

Booking and deposit must be done within the 20<sup>th</sup> of December 2011, after that date booking will be possible but paying extra due to the rising cost of aeroplane fares

You probably know about Warren Miller, the famous American ski film director. Once back from a previous climbing/ski trip to Kazakisthan trying to collect information about the country that fascinated me so much that time, I found out that Miller described Chimbulaz as one of the best places he had been. Both for snow quality and slope quality. Lifts get as high as 3.700 mts on sea level, starting from village Chimbulaz. The village is just North of ex capital Alma Aty a town of great interest.

We shall fly to Alma Aty and then move to Chimbulaz, every day off piste skiing and when possible a bit of skinning to reach the best spots. I can tell you there are many reasons why to go skiing in Kazakisthan, write to me and I might tell you some!

## **MARCH: Canada, Campbell Icefield Chalet**

Departure Thursday the 5<sup>th</sup> of April, return the 16<sup>th</sup>. Price € 3.500

(ski touring in a different dimension environment)Booking and deposit must be done within the 30<sup>th</sup> of November 2011, after that date booking will be possible but paying extra due to the rising cost of aeroplane fares

The chalet where you will spend six days, getting there is by helicopter!

Twenty minutes flight by heli to get there or six days by skis ... better the first option and then six days in this wonderful hut. Private cook, excellent food, short or long ski tours every day, depending on the weather. Campbell Chalet is perfectly located, in case of bad weather skiing is possible in the wood below the hut if weather is good a wide choice of picks and routes are available. From a couple of hours skinning to seven/eight hours! Watch this video and ask an Italian friend to translate the words of one of last year skiers to you. You will agree

[Every day this kind of pain](#)

A unique way to visit the Canadian mountain and ski tour there with the comfort of a cosy hut

Sir Alan Campbell, la cima più alta e ambita del posto

We fly from Milan, land in Calgary and drive to Golden. Friday we ski off piste at Kicking Horse the Golden village ski area. Saturday flight to the hut for six days of ski touring. Next Saturday flight back to Golden and transfer to Calgary, Sunday flight back to Europe where we land one day after due to flying East. The price does not include Calgary/Golden and return transfer and accommodation in Golden.

### **April: Norway, sli/boat trip in the Lyngen Alps**

~~1° Grup: Departure Saturday the 14<sup>th</sup>, return the 21<sup>st</sup>. Price € 2.800~~

2° Grupp: Departure Saturday  
the 21<sup>st</sup> of April, return the 28<sup>th</sup>. Price € 2.800  
Only five (5) places left!!!!

Booking and deposit must be done within the 20<sup>th</sup> of February 2012, after that date booking will be possible but paying extra due to the rising cost of aeroplane fares

Tromso by night once back from a fantastic ski/boat trip

Since 14 years we organize this trip, we have actually invented the concept of ski/boat ski trips. The knowledge of the Lyngen Peninsula is deep and by Polargirl, our boat, you will be taken to the impossible to reach mountains that have made all our clients in the past screaming of joy. Six day on board, excellent food, a sauna on the deck and if you don't like sauna you can always dip into the hot tub (itself on the deck). From one of the two forget the strain of the day, drink a beer and watch the fjord while Captain Trond sail us to the next village. Two or four berths rooms, fours showers, one sauna, one hot tub, the north light ... come and feel Norway with us and your skis.

Don't forget that we start from sea level and the highest mountain will be a bit more than 1.300 meters, this means nobody has to be super fit or super fast. Recover is quick due to the small altitude, infacy this is “the lowest and most loved level altitude ski touring in the world”!!!
